

### DVS 204D

## DESCRIPTION

Extron **DVS 204** scalers incorporate the latest in high performance and proprietary scaling technology with the input flexibility essential for today's top-notch audio/video applications—including an optional Serial Digital Interface (SDI) input. With 36 selectable output rates, including a variety of HDTV rates, the DVS 204 is the perfect scaling solution for A/V environments such as boardrooms, conference rooms, and home theaters, as well as rental and staging applications. Models with 12V external power supplies are ideal for yachts, planes, or other environments using a 12V power source.

There are four models in the DVS 204 line—DVS 204, DVS 204D,

**DVS 204 12V**, and **DVS 204D 12V**. Each model supports the following video formats on one of four inputs: RGB pass-through, component, S-video, and composite video. Input 4 also accepts RGB computer-video as a pass-through signal. The "D" (digital) versions also support SDI signals. For all models, RGB or component video is output simultaneously on one female 15-pin HD connector and six female BNCs.

To enable superior scaling performance, the DVS 204 features several Extron proprietary technologies: Dynamic Motion Interpolation (DMI<sup>™</sup>), 3:2 and 2:2 pulldown detection (patent pending), True Rate, and patented Accu-RATE Frame Lock (AFL<sup>™</sup>). Key features include aspect ratio control to accommodate different movie formats, three aspect ratio presets per input, and vertical blanking adjustments.

The DVS 204 can be controlled using the front panel or through the RS-232 serial port. Each model can also be controlled remotely through the optional IR 901 remote. The front panel buttons control video input selection and picture adjustments. All functions are available through RS-232 using Extron's user-friendly Simple Instruction Set (SIS™).

## **FEATURES**

- Input and Pass-through connectors Input one accepts composite video
  on one female BNC; input two accepts composite, S-video, or component on
  three females BNCs; input three accepts S-video on a 4-pin mini DIN; input
  four accepts an RGB computer-video pass-through or 15 kHz RGBS, or
  RGBcvS signals on a female 15-pin HD connector. The optional SDI card
  can be configured for any of the four inputs.
- 3:2 (NTSC) and 2:2 (PAL) pulldown detection Advanced film mode processing techniques help maximize image detail and sharpness for NTSC or PAL sources that originated from film (patent pending).
- **True-Rate** Recovers the natural motion dynamics of material that originated from film.
- **Dynamic Motion Interpolation (DMI)** DMI technology is an advanced motion detection and compensation method used to deliver the best aspects

of still and motion algorithms. This process results in a superior level of image enhancement capability with no loss of image fidelity.

- Accu-RATE Frame Lock (AFL) A patented technology exclusive to Extron that solves frame rate conversion issues experienced by video scalers. When video input and output refresh rates differ, there are certain points in time when the two rates cross over each other. The result is a glitch or image freeze on the display. AFL solves this problem by locking the output frame rate to the input frame rate.
- Scaled output resolutions The DVS 204 provides 36 user-selectable computer-video output rates, up to 1400 x 1050 and including 480p, 720p, 1080p, and 1080i.
- Aspect ratio conversion Ability to horizontally and vertically size any video input to meet a specific aspect ratio. Three memory presets for aspect ratio are available for each input by pushing each input button repeatedly.
- Quad-standard video decoding compatibility The DVS 204 uses a digital, four-line adaptive comb filter to decode NTSC 3.58, NTSC 4.43, PAL, and SECAM for integration in systems worldwide.
- **SDI input card** An optional Serial Digital Interface (SDI) input is available.
- **Picture controls** Brightness, contrast, color, tint, horizontal and vertical sizing, and horizontal and vertical centering are provided.
- Vertical blanking Variable top and bottom vertical blanking eliminates edge noise caused by tapehead switching and captioning.
- Front panel security lockout This feature locks out all front panel functions except for input selection; all functions, however, remain active through RS-232 control.
- RS-232 control A rear panel, RS-232 control port provides connection of the DVS 204 to a third-party control system.
- **Display compatibility** The DVS 204 scalers are compatible with display devices such as VGA/SVGA monitors, HDTV, LCD, DLP<sup>™</sup>, D-ILA<sup>®</sup>/LCoS, or plasma.
- Simple Instruction Set (SIS) Extron SIS is a set of basic ASCII code commands that provides simple control through a third-party control system. Instead of programming in long, obscure strings of code, SIS makes it easy to operate an Extron product using RS-232 control.
- **Rack-mountable** The DVS 204 is housed in a 1U, half rack width metal enclosure.
- Power supply The DVS 204 is available in versions suitable for fixed or mobile applications. The DVS 204 and DVS 204 D are equipped with an internal, autoswitching power supply for worldwide compatibility. For marine and other mobile applications, a 12 VDC, 3A power supply is supplied with the DVS 204 12V and DVS 204 D 12V.

MODEL	PART #
DVS 204	60-442-01
DVS 204 D (with SDI input)	60-442-02
DVS 204 12V	
(12V external power supply)	60-442-11
DVS 204 D 12V (with SDI input	
and 12V external power supply)	60-442-12

## **OPTIONAL ACCESSORIES**

SDI input card	70-168-01 (page 427)
IR 901 remote control	
Under Desk mounting kit	
1U Rack Shelf

# **SPECIFICATIONS**

IDEO INPUT	
Number/signal type	1 (RGBHV, RGBS, RGsB) pass-through, RGBS, RGBcvS 1 composite video, S-video, component video (Y, R-Y, B-Y) 1 S-video, 1 SDI (optional, DVS 204D only)
Connectors	1 composite video (1) 15-pin HD female — RGB pass-through, RGBS, RGBcvS 3 BNC female — component video, 5-video, composite video 1 BNC female — SDI (DVS 2040, DVS 2040 12V only)
	(1) 4-pin mini DIN female — S-video 1 BNC female — composite video
Nominal level	1 Vp-p for Y of component video and S-video, and for composited
	0.7 Vp-p for RGB and for R-Y and B-Y of component video 0.3 Vp-p for C of S-video
Minimum/maximum levels	Analog: 0.0V to 1.0 Vp-p with no offset
Impedance Horizontal frequency	NTSC 3.58, NTSC 4.43, PAL, SECAM
Vertical frequency Resolution range	NTSC 3.58, NTSC 4.43, PAL, SECAM
Return loss	<-30 dB @ 5 MHz
DC offset (max. allowable)	1.5V
IDEO PROCESSING Decoder	9 bit digital
Digital sampling Colors	24 bit, 8 bits per color; 13.5 MHz standard 16.78 million
IDEO OUTPUT	

υ		
	Number/signal type	1 scaled or pass-through RGBHV, RGBS, RGsB; or scaled component video (Y, R-Y, B-Y)
	Connectors	6 female BNC
		1 female 15-pin HD
	Nominal level	1 Vp-p for Y of component video
		0.7 Vp-p for RGB and for R-Y and B-Y of component video
	Minimum/maximum levels	0.0V to 0.7 Vp-p
	Impedance	75 ohms
	Scaled resolutions	640x480 <sup>1,3,4,5,6</sup> , 800x600 <sup>1,3,4,5,6</sup> , 848x480 <sup>1,3,4,5,6</sup> ,
		852x480 <sup>1,3,4,5,6</sup> , 1024x768 <sup>1,3,4,5,6</sup> , 1280x768 <sup>2,3,5,6</sup> ,
		1280x1024 <sup>1,3,4,5</sup> , 1360x765 <sup>1,3,4,5,6</sup> , 1365x1024 <sup>1,3,4,5</sup> ,
		1400x1050 <sup>1,3,,5</sup> , HDTV 480p <sup>3,5</sup> , 720p <sup>3,5</sup> , 1080p <sup>3,5</sup> , and 1080i <sup>3,5</sup>
		<sup>1</sup> = at 50 Hz, <sup>2</sup> = at 56 Hz, <sup>3</sup> = at 60 Hz, <sup>4</sup> = at 75 Hz,
		$^{5}$ = locked to the current input's vertical refresh rate, $^{6}$ = True Rate

SYNC	
Input type	. R(RGBHV, RGBS, RGsB) pass-through, RGBS, RGBcvS
Output type	. RGBHV, RGBS, RGsB
Standards	. NTSC 3.58, NTSC 4.43, PAL, SECAM
Input level	. 0V to 1.0 Vp-p
Output level	. TTL: 5.0 Vp-p, unterminated
Input impedance	. 75 ohms
Output impedance	75 ohms
Max input voltage	. 5 Vp-p
Max. propagation delay	. 20 ns
Polarity	Positive or negative (switch-selectable)
CONTROL/REMOTE	
Serial control port	. RS-232, 9-pin female D connector
Contact closure	. 9-pin female D connector (same as RS-232 connector)
IR remote control	
Program control	. Extron's control program for Windows <sup>®</sup>
	Extron's Simple Instruction Set™ — SIS™
GENERAL	
Power	
DVS 204, DVS 204D	100 VAC to 240 VAC, 50/60 Hz, 30 watts, internal,
	autoswitchable
DVS 204/204D 12 VDC	100 VAC to 240 VAC, 50/60 Hz, 36 watts, external,
	autoswitchable; to 12 VDC, 3 A power supply. Product requires 2
	Α.
	. Yes, with optional rack shelf, part #60-190-01
Enclosure type	Metal
Enclosure dimensions	1.75" H x 8.75" W x 9.5" D (1U high, half rack width)
	4.4 cm H x 22.2 cm W x 24.1 cm D
	(Depth excludes connectors and knobs. Width excludes rack ears.)
Product weight	
Shipping weight	6 lbs (2. / kg)
	UL, CUL, CE, FCC Class A, VCCI, AS/NZS, ICES
Warranty	3 years parts and labor
